

	Buying Scenario	Capital Asset System Type	Capital Asset Type
1	One individual asset	New Asset	Standalone
2	Several individuals assets all over \$5k	New Asset	Standalone
3	One asset system, where the 'main' item is over \$5k and all the necessary components are under \$5k	New System	Standalone + Component
4	One asset system, where the component(s) are over \$5k but they are all 'one system' (1 supplier)	New System	Standalone + Component
5	One asset system, where the component(s) are over \$5k but they are all 'one system' (2 suppliers)	New System	Standalone + Component (but mark as standalone if more than one supplier)
6	Components for a fabrication (cannot include annual licenses or any kind of service / warranty agreement or training)	Modify Existing	Fabrication
7	Replacement or repair parts regardless of \$\$	n/a - capital asset tab blank	
8	Fixed asset under \$35,000	n/a - capital asset tab blank	
9	Add-on (permanent dedicated addition over \$5K and not a replacement part)	Modify Existing	Add-on
10	Any of the above with installation, freight, ancillary fees.	New System	Standalone + Freight (but mark as component)
11	Fixed Asset (total cost >=\$35,000) <i>Note, if fixed asset is less than \$35,000 it is a supply and capital asset tab should be blank (see replacement or repair example above)</i>	Modify Existing	Add-on
