Pre-Notification of change in legal entity and company name

Dear valued customer,

As announced on February 25, 2019, Danaher Corporation intends to purchase the GE Healthcare Life Sciences business units consisting of BioProcess, Cell & Gene Therapy and Genomics & Cellular Research, (hereafter referred to as 'Biopharma'). Subject to regulatory approvals and customary closing conditions, the transaction is expected to close as soon as the fourth quarter of 2019.

We want this transition to be as smooth as possible for you. To allow us to continue serving you, we're notifying you now about upcoming changes that will require you to update your procurement systems.

The Biopharma United States legal entity will change effective from **30th September** as specified in the table below. These legal entity changes will require you to update your procurement systems as soon as possible from 30th September to allow the **receipt of goods from both the Current Legal Entity or New Legal Entity** for a period of time. All open orders from 30th September will be fulfilled in the New Legal Entity with shipping notifications and invoices from the New Legal Entity.

If you have already placed a purchase order under the current legal entity, there is no need to re-issue that purchase order, unless your company policy requires it.

Rest assured that our quality management system, processes for change control, change control notifications, manufacturing processes, locations and equipment will remain unchanged. There will be no change in our product part numbers or quality release claims. All terms of legal agreements will remain in effect until agreement expiry or renewal. We look forward to continuing to deliver our products and services to you as usual during this transition period.

Below are our new supplier details – please prepare to update your system and if applicable provide your updated tax-exempt certificate to reflect the New Legal Entity.

Current Legal Entity	GE HEALTHCARE BIO-SCIENCES CORP
New Legal Entity	Global Life Sciences Solutions USA LLC

Other details including bank account, addresses and contact information **are not changing**. Note: for our remit to address, please replace Current Legal Entity name (GE HEALTHCARE BIO-SCIENCES CORP) with the New Legal Entity Name (Global Life Sciences Solutions USA LLC).

We will provide further communication prior to the close of the Danaher transaction to keep you informed. Until the sale to Danaher is completed, the New Legal Entity will belong to GE Healthcare.

Once the transaction closes, our company will become known as Cytiva. We will share more details about the rebranding in due course and new product labelling will be done in phases.

Please reach out to cs-us@ge.com with any comments or feedback. We look forward to continuing to do business together.

Yours sincerely,

Darrin Duncan
