Pricing includes costs for performance of services including labor, transportation, pickup and delivery of the bottled water and empty bottles. Coolers and bottles are the property of the Supplier. Any California Redemption Value (CRV) shall be stated separately on the invoice, and shall be the responsibility of UC. CRV is only charged on single serve containers not on 5 gallon bottled water products. CRV charges are not controlled by the supplier, but imposed on the supplier and the customer by the State.

Special Services / Short-Term Equipment Use

Supplier will make available coolers and related equipment as requested by UC for special events such as graduations at the contract prices for equipment and supplies plus an additional charge of \$25.00 per cooler for delivery, set up, pick up and reconditioning.
